

Welcome

CRYPTO CUSTODY CONTROLS NOT HANDCUFFS

Mercy Corps' RFI Learnings

Jay D Price
Global Treasurer

*6,000 strong, we live and work
in more than 40 countries.*

Problems to Solve

- › How do we hold investments in digital assets (cryptocurrencies or tokens) securely?
- › What controls do we require?
- › Who holds the controls?
- › How do we account for these assets?
- › How do we pay for the digital asset?

Crypto Custody Definition

- › Protective care
- › Third party trustee
- › Security protocols
 - Quorums
 - Key divisions
 - Facial recognition
 - Voice recognition
 - Face to Face
 - Cold storage
 - Physical vaults

Crypto Custody Considerations

- › Security features
- › PC vs App Based
- › Insurance
- › Usability
- › Cost

Crypto Custody Providers

› Anchorage

- High minimum balance
- App based process
- Facial recognition

› BitGo

- Visual process
- Corporate control structure
- Actual vault

› Coinbase

- Low minimum balance
- Corporate control structure
- Large coin inventory

Crypto Custody Providers

- › Gemini
 - No minimum
- › Others
 - Fidelity & Banks
- › Self Built
 - Exchange account
 - ICO specific wallet
 - MyEtherWallet (ERC20)
 - Coinlist
 - Cold storage
 - Ledger

Crypto Thoughts

- › What is your use case?
- › Do you control your crypto?
- › Exchange vs Custody?
- › Cold storage, hard wallets, vaults?
- › Write it down?

Thank You!
